Summary

Software Engineer with experience in full-stack development, system design, and machine learning. Skilled in JavaScript, React, Node.js, and cloud databases. Proven track record of building scalable web apps, mobile interfaces, and real-time platforms. Strong foundation in data structures, algorithms, and Agile methodologies.

Education

B.Tech in Computer Science Engineering

Shri Vaishnav Institute of Technology and Science, Indore

2021 – 2025

CGPA: 7.6 / 10.0

Relevant Coursework: Data Structures, Algorithms, Machine Learning, Web Development

Work Experience

Software Development Engineer (Full-Time)

Feb 2025 – Present

9xfold, Indore

- Developed a full-featured POS system used by 100+ merchants for real-time billing and tracking
- Built a dialer system similar to JustDial with lead management and integrated communication
- Managed system architecture design across backend, frontend, and deployment environments
- Delivered full-stack, Android, and ML features while working 7–8 hours/day alongside academics

Software Development Intern

Nov 2024 – Jan 2025

Coreintels Pvt Ltd, Bengaluru

- Designed and developed microservices for 1M+ users, improving backend scalability by 40%
- Reduced average API latency by 30% using Redis caching and Prisma optimizations
- Built frontend for Hiredeasy.com, including multi-step forms and LinkedIn job scraper
- Integrated real-time data sync with Firebase, maintaining 99.9% system uptime

Projects

Anonymous Messaging App

Next.js, Firebase, JWT

- Built a secure chat app with 5,000+ users using JWT-based authentication and Firebase DB
- Enabled real-time messaging with WebSocket-like updates and Firebase listeners

YashTube Video Platform

MERN Stack, WebRTC

- Created a video platform with advanced search, user analytics, and WebRTC streaming
- Reduced video load times by 40% with optimized chunking and MongoDB aggregation

Emotion Detection System

TensorFlow, OpenCV

- Trained CNN model on 10,000+ facial images to detect emotions in real-time via webcam
- Achieved 85% accuracy in real-world test cases for 7 emotion classes

Skills

Languages: JavaScript (ES6+), Python, C++, Java, Go

Frameworks: React.js, Node.js, Express.js, Next.js

Databases: MongoDB, PostgreSQL, Firebase, Supabase

Tools: Git, Docker, Prisma, REST APIs, GraphQL, CI/CD

ML/AI: TensorFlow, OpenCV, CNN, Data Analysis

Blockchain: Solidity, Ethereum, Web3.js

Certifications

TensorFlow Developer Certificate — Google

Blockchain Developer Certificate — ConsenSys

Advanced Algorithms Training — Coursera

Cloud Architecture Fundamentals — Udemy

Additional Information

Languages: English (Professional), Hindi (Native)

Interests: Powerlifting, Chess, Competitive Programming, Blogging
